DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. This application is in condition for allowance except for the presence of claims 2-11 to groups II-IV non-elected without traverse. Accordingly, claims 2-11 have been cancelled.

Authorization for this examiner's amendment was given in a telephone interview with George Nimmer on October 14th, 2004.

The application has been amended as follows:

In the Claims:

a. Cancel claims 2-11.

Allowable Subject Matter

3. Claim 1 is allowed.

4. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest the applicant's invention as claimed in detail. Wilhelm '269, one of the most relevant prior art references, discloses a security cover, seal pin and removal tool. However the seal pin of Wilhelm '269 does not include an upper annular groove extending around the circumference of the shaft; each end cap including an annular groove formed on the inward surface of the sidewall, parallel to the ends and located a distance from the outward end

Art Unit: 2151

to lie adjacent one of said annular grooves in the shaft when the cap is secured to an end of the shaft; a pair of locking rings for securing each end cap to an end of the shaft, each locking ring having a split toroidal shape with a diameter such that when the ring is journaled between a pair of associated grooves of an end cap and one end of the shaft it will prevent removal of the end cap from the shaft. Wilhelm '269 discloses a single end cap and locking ring and it would not have been obvious to modify the other end of Wilhelm's seal pin since there is no motivation in the prior art to make such a modification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John B. Walsh whose telephone number is 703-305-0444. The examiner can normally be reached on Monday-Friday from 6:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Zarni Maung can be reached on 703-308-6687. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
